

**Family Reading Partnership Launches
Baby's 1st Year with Books Initiative with
*Oh Baby! Let's Read!***

Words are one of the most important languages of love for babies. Imagine if every single baby in our community began life with songs and rhymes and stories. Imagine if every single family knew to read to their baby, just as they know to feed and clothe them. Imagine a community where not even one baby misses even one day of the powerful benefits of being talked to and sung to and read to by a loved one.

Family Reading Partnership is launching Baby's 1st Year with Books with its latest initiative: *Oh Baby! Let's Read!* Community members are invited to send in their videos and/or photos of family members young and old reading to their infants, birth to twelve months. Images of families reading to baby even before he or she is born are also welcome!

♥ *Creating a culture of literacy...
one book, one child, one family
and one community at a time.*
